INTRODUCING COMMUNICATION RESEARCH

Thinking of About Wealth and Universities by Endowment Donations including Multinational Companies (MNC) with Exposure to Ukraine

Among the 688 of US colleges and universities, 142 college universities had an endowment value at or over \$1 billion. But the vast majority of college universities are not so wealthy, with a median endowment valued at \$209 million. Among nearly 1/3 surveyed of them endowments showed under \$100 million.

In 2022, donation-enrollments value per full-time-equivalent (FTE) between up high to (1) Princeton University \$4,067,983 per FTE, (2) Yale University \$2,868,064 FTE, (3) Stanford University \$2,139,952 per FTE; follow down to a lower of California State University Los Angeles Foundation to \$2,345 per FTE, of Indian University of Pennsylvania to \$1,124 per FTE, and Western Governors University, of only of \$8 per FTE.

One of the total of 192 Universities of Ukraine (public) may eventually become value per FTP multinational commercial entrepreneurs, including donation-enrollments such as (1) Bunge Ltd. as a US-based agribusiness and food company that operates 10 subsidiaries in Ukraine, or a (2) GEA Group in a German corporations mostly active in the food and beverage sector in Dusseldorf, or (3) Nestle S.A. as Swiss multinational food and drink processing conglomerate corporate in Vevey, Switzerland. If only a comparable only a token FTP per \$50,000 to given 100 Multinational Companies MNC (globaldata.com), by say 50 of a total public 192 universities, say \$25,000,000 endowment donations, it would be accumulate annual a capitalized endowment by the end of the 2020, the total of all endoments become \$25 billion of Ukraine as becoming the European Unions, which unfortunately is at present today 2022-2023 was zero for Ukraine.
